**Albion Riverside, London**

Alongside the visual effect and functionality, one important aspect is increasingly becoming the focus of attention in planning activities: safety. A discipline the innovative plaster material **GIFAtec** has perfect command of. As the only material of its kind, **GIFAtec** is classified throughout Europe with building materials class A1, non-combustible (acc. to DIN EN 13501-1).

The material toughness of **GIFAtec** also keeps other unpleasant things at bay. For example, as wall surface protection and even as bullet-proof wall inserts. But you can't see the hard core beneath.

City Library, Dortmund

Playful, functional, colourful or plain – architecture has innumerable faces. In terms of function, visual effect and use, **GIFAtec** offers you plenty of room to play with your ideas of shape, colour and structure. Not only on the walls and ceilings. The **GIFAtec** plaster boards can be

processed, coloured, glazed, varnished, veneered and coated in any form. Even special shapes, e.g. curved elements or column panelling, are possible with **GIFAtec**. Be inspired by the natural material with a future.

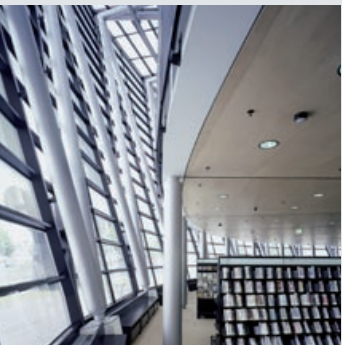

Concert Hall, St. Pölten

So what things make us feel comfortable in a room, a building? **GIFAtec** in every case. Due to its very nature the raw material, plaster, which is an essential component of this material, combines properties that contribute towards a healthy and comfortable room climate.

Among other things, **GIFAtec** is moisture-regulating and has good thermal conductivity. Hence **GIFAtec** is also perfect for use with heating or cooling panels.
